

# Project Highlight

 **HOUSE OF  
HIRANANDANI**<sup>TM</sup>

Experiva Flooring India LLP (EFIL), one of India's leading design-and-build flooring specialists with a strong presence in India and UAE, partnered with House of Hiranandani to deliver a state-of-the-art flooring solution for their premium development in Chennai.

Setting new benchmarks in quality and precision, EFIL executed a 6.5 lakh sq ft Laser Screed Floor in line with TR34 4th Edition global standards, meeting FM2 surface regularity specifications. The floor was built with M30-grade concrete, laid at a 165 mm depth, and reinforced with 6 mm dia steel bars at 200 mm c/c spacing, ensuring durability, structural strength, and long-term performance.

To enhance both aesthetics and functionality, EFIL incorporated advanced polishing techniques, resulting in a sleek finish ideal for high-end Industrial & Grade A Warehousing environment.

## Project Snapshot
